EDUCATION

La Salle University – Ozamiz

August 2022 – July 2026

Bachelor of Science in Computer Science

Relevant Coursework: Software and AI Engineer, Mobile Application Development, Data Analyst, UI/UX Design

Thesis: "KMASS: A Modeling & Simulation Approach to Optimizing Kitchen Efficiency and Improving Kitchen Service Capacity"

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, PHP, Dart, HTML, CSS, SQL

Frameworks & Libraries: Laravel, Next.js, React, Flutter, FastAPI, Tailwind CSS, Framer Motion, OpenCV, Pillow

Data Analytics & Visualization: Power BI, Tableau, Microsoft Excel, Python (Pandas)

Tools & Platforms: Git, GitHub, Vercel, Figma, Postman, Selenium WebDriver, PostgreSQL, MySQL, Power BI, Tableau

Productivity Tools: Microsoft Office (Excel, Word, PowerPoint), Google Workspace (Sheets, Docs, Slides, Drive)

EXPERIENCE

Department of Education – Division of Ozamiz City

Ozamiz City, Mis Occ.

Software Developer Intern | PHP, Laravel, MySQL, JavaScript, HTML, CSS, Figma

February 2026–June 2026

- Designed and developed responsive, user-friendly interfaces for the DepEd Ozamiz Crystal Portal, ensuring consistent layouts and accessibility across different screen sizes.
- Translated detailed Figma mockups into functional web components while maintaining visual consistency, usability, and alignment with the portal's overall design.
- Designed and implemented the Event Gallery and developed the Procurement Progress Monitoring System.
- Conducted beta testing for the Document Tracking System, documented functional and usability issues, and provided actionable feedback to improve reliability.

Global Beta Test Network (GBTN)

Philippines (Remote)

Quality Assurance Tester (Part-Time) | Game & Functional Testing, Bug Reporting

January 2025–February 2026

- Participated in structured testing sessions to evaluate pre-release game features and performance.
- Reported gameplay, usability, and technical issues through detailed and timely bug documentation.
- Followed testing procedures, schedules, and confidentiality requirements.

Freelance

Ozamiz City, Mis. Occ.

Data Analyst | Python, Power BI

August 2023–July 2025

- Cleaned and transformed hospital datasets in Python to ensure accurate and reliable data for analysis.
- Created Power BI dashboards and visualizations to clearly present key trends, findings, and insights.

PROJECTS

SunnyBooth – | Next.js, React, TypeScript, Tailwind CSS, WebRTC, Canvas API, Vercel, Cloudflare

June 2026–Present

- Built a responsive browser photobooth with live capture, countdown controls, custom layouts, and real-time previews.
- Developed an upload-based editor with customizable canvas colors, frame backgrounds, and photo-strip styles.
- Implemented private browser-based photo processing using WebRTC and the Canvas API.
- Added PNG/JPG downloads, high-resolution exports, and print support for completed photo strips.

ForenSight | Next.js, TypeScript, FastAPI, Python, OpenCV, Vercel

- Developed an image-forensics web app that detects possible signs of editing and AI generation.
- Combined metadata, noise, compression, and error-level checks into explainable authenticity reports.

April 2026–June 2026

Attack on Titan Guide Web App | Flutter, Dart, Provider, Shared Preferences

October 2024–March 2025

- Built an interactive guide with character profiles, statistics, favorites, and a Scout quiz.
- Added state management and local storage to preserve user preferences across sessions.

LEADERSHIP & ACTIVITIES

College of Computer Studies, Engineering, and Architecture – PARECOM

Ozamiz City, Mis Occ.

Department Undersecretary

2023– 2024

- Represented the college department and supported the planning of student activities.
- Coordinated task assignments, event preparation, and technical support with fellow officers.

ADDITIONAL

Certifications: Flutter & Dart App Development Certificate | Udemy, UI/UX Design Using Figma | Udemy, 7th Online International Multidisciplinary Research Conference (IMRC 2025) De LaSalle Araneta University.
