

JESPER NICHO G. ALICANDO

Automation Specialist | AI Workflow Engineer | Full-Stack Builder

+63 976 279 4101 | jesperalicando01@gmail.com | Ozamiz City, Philippines | Portfolio: nicho-portfolio-two.vercel.app

SUMMARY

AI Automation Developer and Computer Science graduate with hands-on experience building AI-powered workflows, web applications, and automated data systems. Skilled in n8n, Make, Zapier, GoHighLevel, OpenAI, Claude, Gemini, Supabase, Baserow, Airtable, APIs, and webhooks. Built an end-to-end AI feedback automation system integrating intelligent classification, automated issue tracking, recurring and reopened issue detection, priority alerts, and AI-generated weekly reporting. Strong background in full-stack development, API integration, database management, quality assurance, and workflow automation, with a focus on building reliable solutions that streamline business processes and reduce manual work.

PROFESSIONAL EXPERIENCE

Web Developer & AI Automation Specialist | Intern· Ozamiz City *Feb 2026 – May 2026*
Department of Education (DepEd)
React / Next.js | Lovable | Claude Code | Supabase | N8n Backend

- Developed an automation workflow for the procurement monitoring system, replacing manual Excel-based data entry with an automated process to improve efficiency, reduce repetitive work, and streamline procurement progress tracking.
- Contributed to the development and testing of web-based systems using PHP, Laravel, MySQL, JavaScript, HTML, and CSS.
- Supported system testing, bug identification, and quality assurance.
- Assisted with internal applications involving document tracking and procurement-related processes.

AI Automation Specialist & Full Stack Developer | Contractual · Confidential *Sep 2023 – Aug 2025*
Business Acquisition Intelligence Program (BAIP)
React / Next.js | Lovable | Claude Code | Supabase | N8n Backend

- Contributed to a business acquisition platform for business research, lead management, and deal tracking.
- Developed frontend features using React, Next.js, and TypeScript.
- Connected the application to n8n automation workflows through webhooks.
- Worked with Supabase to store and manage structured business listing and lead data.
- Contributed to workflows for business listing collection, parsing, deduplication, and storage from multiple brokers.
- Integrated AI-powered research and lead scoring using OpenAI and web research services.
- Supported Gmail-related automation and business communication workflows.

Business Automation & Data Assistant | Part-Time *Aug 2022 – Jun 2023*
Local Coffee Shop
Microsoft Excel | Google Sheets | Typeform | n8n | Airtable | Email Automation

- Improved manual business processes involving inventory tracking, sales calculations, and operational reporting.

- Created a basic dashboard for sales reporting and data visualization to make business information easier to monitor.
- Built a customer feedback automation workflow using Typeform, n8n, and Airtable to collect and organize customer responses.
- Configured automated email notifications to help ensure customer feedback was received and reviewed.
- Identified repetitive tasks and introduced practical automation solutions to reduce manual work and improve operational efficiency.

Data Analyst & Visualization Specialist | Client-Based Projects *Dec 2021 – Apr 2022*
Freelance
Power BI | Tableau | MySQL | Excel

- Analyzed hospital datasets using MySQL to query, organize, and prepare data for analysis.
- Developed interactive dashboards and visualizations using Power BI and Tableau.
- Transformed raw healthcare data into visual reports highlighting trends, patterns, and key metrics.
- Presented data insights through clear and structured dashboards to support data-driven decision-making.

KEY PROJECTS

Automation Specialist & AI Workflow Engineer | Project-Based Developer *2026 – Present*
SunnyBooth

- Built AI-powered feedback automation using n8n, Google Gemini API, Google AI Studio, Supabase, and Baserow.
- Developed SunnyBooth using Next.js, React, TypeScript, and JavaScript with RESTful API and webhook integrations.
- Automated AI feedback classification, sentiment analysis, prioritization, summarization, and issue tracking.
- Integrated n8n workflows with Gemini API, Supabase, Baserow, and Gmail through RESTful APIs and webhooks.
- Implemented OAuth, API authentication, credential management, and third-party service integrations.
- Built a CRM-style issue tracking system with automated issue IDs, duplicate detection, status updates, and recurring issue tracking.
- Automated high-priority alerts, resolved-issue reopening, and conditional workflow routing.
- Developed scheduled AI reporting for feedback trends, bugs, feature requests, sentiment, and recommended actions.
- Deployed n8n on Railway for cloud-hosted webhook processing and scheduled workflow automation.
- Managed source code and development workflows using Git and GitHub.

GHL Workflow Automation Suite *2025*
GoHighLevel | N8n | JavaScript | WhatsApp | SMS

- Built an EDP Workshop Check-In Processor in GHL: multi-branch workflow routing contacts through workshop type (Spanish/English), language, spouse check, and dynamic tag assignment before triggering Opportunity creation and webhook handoffs
- Developed a WhatsApp Automation (Spanish) GHL workflow: handles inbound WhatsApp messages with intent detection (Seminar, Confirmation, Opt-Out, Admin), branching reply sequences, tag management, and timeout fallbacks across 4+ conversation flows
- Designed a New Scheduling System GHL workflow: auto-routes contacts by location (Northridge, Oxnard, North Hollywood, Palmdale), detects language, applies date-based tags, and books into the correct time slot (10:20, 6:20) per location each week

EDP Concierge — AI Voice Concierge System *2024*
N8n | Retell AI | GoHighLevel | Supabase | JavaScript

- Production N8n automation handling inbound Retell AI voice call webhooks for seminar confirmation, no-show rebook, and post-seminar feedback workflows

- Multi-branch routing engine using Switch nodes to parse call outcomes (confirmed, rescheduled, cancelled, rebooked, declined) and trigger the correct GHL contact tag updates
- Outbound call queue system: scheduled cron triggers pull due contacts from Supabase, dispatch bilingual (EN/ES) Retell AI calls, and update status in real time
- Daily automation to sync GHL contacts, build date-based tags, and populate the outbound queue for next-day seminar reminders
- Modular architecture with error handling, webhook triggers, and JavaScript code nodes for custom date/tag logic

AI Receptionist Agent *2023*

N8n | Twilio API | OpenAI

- Automated inbound SMS/voice handling with AI-generated responses for client businesses

ACHIEVEMENTS

- Saved clients 20+ hours per week by automating repetitive processes
- Increased campaign engagement by 30% through optimized SMS automation workflows
- Built and deployed a multi-broker scraping pipeline processing hundreds of listings per run with deduplication and AI scoring
- Designed and shipped the EDP Concierge system — a complete AI voice call workflow covering confirmation, rebook, and feedback loops fully integrated with GoHighLevel
- Streamlined business operations for multiple clients by eliminating manual data entry across CRM and reporting workflows

SKILLS

AI Automation	AI & Agents	Development	Data & Platforms
n8n	Google Gemini API	React / Next.js	Supabase
Make.com	Google AI Studio	TypeScript	Baserow
Zapier	OpenAI API	JavaScript	Airtable
GoHighLevel	Claude	Python	PostgreSQL
Workflow Automation	AI Agents	PHP / Laravel	MySQL
RESTful APIs	RAG Systems	HTML / CSS	Google Sheets
HTTP / Webhooks	Voice AI	Tailwind CSS	HubSpot
OAuth / Authentication	Retell AI	FastAPI	Railway
API Integration	Tavily API	Git / GitHub	Vercel
Conditional Routing	Prompt Engineering	Postman	Power BI

Additional Tools: Gmail API · HubSpot · Figma · Vercel · Selenium WebDriver · Flutter · Dart · Pandas

Soft Skills: System Design · Process Optimization · Problem-Solving · Debugging · Quality Assurance · Technical Documentation · Data Analysis · Client Collaboration · Attention to Detail

TRAININGS

Cherry Ortega GHL – Live Training: GHL Automation & Seminar *2025*
Technical Virtual Assistants PH – Online Training & Project-Based Learning *2024*
Practical N8n, Make, GoHighLevel Automation – Self-Directed *2023*

CERTIFICATES

Google AI Certificate - *Google* 2026
AI Fundamentals - *Google* 2026
Foundations of Business Intelligence - *Google* 2025
Google Data Analytics - *Google* 2023

EDUCATION

Bachelor of Science in Computer Science *2022 – 2026*

LANGUAGES

English – Fluent **Cebuano** – Native
